History

The Shankareshwara Temple is located at Turuvekere town, Turuvekere taluk, Tumakuru district.

The Mule-Shankareshwara is in many respects similar in plan to the Channakesava temple. It consists of a *garbhagriha*, a *sukanasi*, a *navaranga* with an entrance and porch on the south. The *linga* here faces east. The tower, however, differs from that of the other temple in design, having rows of turrets from the bottom to the top. At the angles to the right of the *navaranga* are the figures of Saptamatrikas and Ganapati and opposite to the entrance, figures of Bhairava, Virabhadra and Subramanya. There is no figure sculpture on the outer walls, but only pilasters with intervening turrets.
