History

The Choubara monument is located in Bidar city, Bidar district.

This is an old cylindrical tower, constructed probably as an observation post. It rises to about 22 meters above the ground level commanding a fine view of the entire plateau from the top. The base of the tower is circular in shape, measuring 55 meters and is about 5.2 meters high with arched niches built along its lower parts. Light and air are allowed to pass through the four rectangular openings.
