History

The mosque is renowned for the magnificent stone chains hanging from the Chajja and minarets. These are carved out of a single block of stone and hang from every conceivable point. Each has a globular pendant at the end carved as a perforated hollow ball with a smaller ball inside. On the stylistic and epigraphically grounds the masjid belongs to 1617. From an inscription found on the mosque, the builder was Ankusakhan, the Bijapur Governor of Lakshmesvara.
