History

Moat around the fort of Srirangapatna in Mandya district is important from its plan of execution. Srirangapatna fort has natural and artificial moat. On the riverside natural water protects the fort. On the south and eastern side, earth was dug up and about 20-25 feet deep moat was erected, water used to be filled in it and dangerous aquatic animals were left in them. Two enclosed moat may be seen at Srirangapatna.
