

04. Narayanadeva temple

Place - Ingaleshwara

District : Vijayapura
Taluk : Bagewadi
Locality : Ingaleshwara

Geo - Coordinates:
Lat : 16.652350°N
Long : 76.017053°E

3D Point Cloud

History

The temple consists of a garbhagraha, an antarala and an open mukhamandapa. The doorframe of the garbhagraha is tri-shakha. The lalatabimba contains a tiny Gajalakshmi bimba. Inside the sabhamandapa are two free standing pillars? On either side of the doorway are Kalasa motifs. The kadamabanagara or phamsana superstructure is damaged. It seems to be a Rashtrakuta temple.
