History

This is a trikuta temple. It comprises three garbhagrhas, an antarala and a sabhmandapa. Each garbhagraha houses a Sivalinga. In the sabhmandapa are four free standing pillars? The doorframe consists of three shaklhas of usual order. Inside the sabhamandapa are four devakosthas. In the sabhamandapa is an ornate Nandi. On the southern side of the percept that surrounds the temple is a big gateway and on the northern sides are steps leading the river Bhima, inside it are an open roofed Verandha supported by many pillars. To the north –east of the temple is a small shrine facing south and on the western wall exterior are slabs of two Viragals of usual type and a Naga sculpture. Over the garbhagraha is superstructure of later period, stylistically it is of C.12-13th century A.D.
